INTRODUCTION

Learn to use Revizto™, a BIM collaboration platform for 3D and 2D workflows, for Virtual Design and Construction (VDC). VDC is a technology that will empower you to create digital models of buildings and project sites. Our qualified Revizto instructor will guide you on how to undertake real-time issue tracking, collaboration, and BIM project coordination.

COURSE OBJECTIVES

- Be capable of creating digital models of project sites
- Empowered to improve project collaboration and coordination

WHY YOU SHOULD CHOOSE CPPL

Construction Professionals Pte Ltd (CPPL) is Singapore's longest serving infrastructure and building construction professional organisation. We are committed to the highest standards for our people, our industry, and our communities.

As an Autodesk Authorised Training Centre (ATC), CPPL is cultivating the next generation of AEC professionals with the most advanced learning and development courses.

KEY COURSE INFORMATION

- 1.5-day training
- CPPL Training Centre at 1 North Coast
- As CPPL is an e2i-supported training provider, NTUC union members are eligible for UTAP training fund
- Course includes:
  - Revitzo – e.g. in workflows, interface, work with 2D and 3D
  - Issue tracker, reporting, dashboard, reality capture
  - Application of workflows between Revitzo and Revit

ASSESSMENT AND AWARD

Participants who meet the attendance requirement will be awarded a *Certificate of Completion.*

WHO SHOULD ATTEND THIS COURSE

Recommended for both Revit and non-Revit users including BIM modellers, BIM coordinators, project coordinators, designers, architects, engineers and project managers.
