Autodesk Revit for Architecture - *Advanced*

INTRODUCTION

Enhance your current Revit® skillset with the ability to solve complex challenges in BIM production workflow and design. This Advanced course is designed to help you attain proficiency in creating and managing Revit models and processes, and confidently create customised families in 3D models.

Take your career to the next level with Advanced course, a critical step towards being an Autodesk Certified Professional in Revit for Architectural Design.

COURSE OBJECTIVES

- Move beyond templates to create customised families in 3D models
- Solve complex challenges in BIM production workflow and design using Revit
- Step towards attaining a globally recognised professional certification

WHY YOU SHOULD CHOOSE CPPL

Construction Professionals Pte Ltd (CPPL) is Singapore's longest serving infrastructure and building construction professional organisation. We are committed to the highest standards for our people, our industry, and our communities.

As an Autodesk Authorised Training Centre (ATC), CPPL is cultivating the next generation of AEC professionals with the most advanced learning and development courses.

LEVEL

Fundamentals (CPARA001) ▶ Advanced

KEY COURSE INFORMATION

- 3-day training (9:30am-5:30pm)
- CPPL Training Centre at 1 North Coast
- As CPPL is an e2i-supported training provider, NTUC union members are eligible for UTAP training fund
- Advanced course on Autodesk Revit for Architecture including:
  - Customised families – e.g. architectural, MEP, and structural-specific families
  - Design and visualisation – e.g. space planning and analysis, and sketch production
  - Collaboration – e.g. design groups and linking models

ASSESSMENT AND AWARD

Participants who meet the attendance requirement will be awarded the *Autodesk Certificate of Completion.*

WHO SHOULD ATTEND THIS COURSE

Only for industry professionals who are trained in Autodesk Revit for Architecture – Fundamentals.

Highly recommend for BIM modellers, CAD drafters, project coordinators, designers, architects, project managers and professionals who aspire to be a globally recognised Autodesk Certified Professional.
